Professional MDVR System

There are many MDVR devices on the market today. Most of these are half baked consumer targeted systems. Almost all of these systems are of cheap construction and are very difficult to use for actually recording video. Kocchi's is proud to introduce the JH4 HD MDVR that is very compact and it is really rugged, designed to work under any harsh places. JH4 MDVR is the answer to all your DVR problems. This DVR is a no nonsense workhorse for serious users. Very simple to use with easy to understand menus and stellar image recording quality. Very robust watertight design for use in all weather to hit the market and its only available from Kocchi's.
